Bassano Celebrates Peace Right Royally

Very few towns of its size in
whole of the British Empire can
look back with greater pride upon
its celebration of the world's peace
than can Bassano:

The entire day was devoted to a
whole-hearted display of rejoicing,
which in its perfection of arrangement,
coupled with the enthusiastic co-
operation of every person in town,
made the day one which will live
in the memory of all.

The presence of a large number
of Veterans made the significance of
the day more clear and the
townspeople extended themselves to
do honor to the men who by their
courage and fortitude had made it
possible to celebrate a victorious
peace.

The day's events opened sharp
on time by the ringing of all the
bells in town, which was followed
by the parade and procession of
children, veterans and townspeople
to the Ball Grounds. The parade
extended fully half-mile and
comprised some very tastefully de-
corated cars and was brought up in
the rear by the Fire-chief with his
fire-wagon bearing Bassano's Honor
Flag prominently amongst the dec-
oration. The prize for the best
decorated car was awarded to E. P.
Currie without the least hesitation,
for it was eminently deserving of
the honor.

The sports which occupied the
morning program were pulled off
without a hitch and provided some
splendidly contested events.

The Veterans events were easily
the most prominent feature of the

Important Meeting Of Hospital Board

A meeting of the Board of
Trustees for Bassano Municipal
Hospital No. 8, was held on Mon-
day Evening at the Town Hall
when a number of important
matters were discussed.

The report of the delegates to
Edmonton was received and proved
most satisfactory. In the first
place the debentures were sold for
103.80 and delivered free of exchange
at Bassano which is the record
price obtained for hospital deben-
tures.

The Hon. Minister approved of
the sketch plan for extension to
the present hospital and gave per-
mission for the work to proceed
without delay.

J. B. Prentiss was instructed to
prepare plans and specifications for
extension and the secretary to call
for tenders upon completion of
plans.

Miss L. McCallum, late superin-
tendent of the Melville, Sask.,
Municipal Hospital, was appointed
superintendent of the Hospital and
Miss Burroughs appointed nurse.

The superintendent was instruc-
ted to have the hospital opened for
patients by the end of current
week.

By-Law was passed authorizing
issue of debentures for the amount
of \$16,000.

Several accounts in connection
with the recent election were passed
for payment.

The meetings of the Board are
open to the general public and will
be announced through the columns
of the Mail.

Fight Pictures
Untit For Public

Columbus, O.—The Willard-Dempsey fight pictures may never be seen in public. In Ohio at least, they will not be placed on exhibition. The Ohio censor board officially rejected the pictures, which were to have been exhibited in public. The probability of the pictures being shown in other states is believed to depend on what connection it has with the Rosenbergs, A. which prohibits price fight pictures being handled in interstate commerce.

Confidence in Ancient Egypt

The invention of confectionery, an

Noah, who first hit on the idea of boiling down the starch of the wheat and the juice of the grape. The result was a paste, said to be the original of our present-day "Turkish delight." Among the ancient Egyptians, whole fruits, particularly dates, were used, for flavoring purposes, the latter especially for preserves and cakes. In old tombs date ewers have been found, and records of honey jellies. The making of confectionery fat goes back 3,400 years, proof of which is to be found on the walls of Egyptian tombs."

French Favored
Cause Of Jews

Asked That Conditions of Absolute Equality Be Granted Jews In New or Enlarged States

Paris.—M. Pichon, foreign minister, replying to a communication from members of the chamber of deputies with regard to the peace conference with regard to the Jews of Poland, Russia and other countries, declares that, from the beginning of the conference, the French government endeavored to give consideration to the Jewish question and had asked that conditions of absolute equality be granted Jews in new or enlarged states. His efforts, M. Pichon says, resulted in the adoption of a note by Poland guaranteeing complete liberty and equality to Jews in political and religious matters.

GIRLS' LEMON JUICE
IS A SKIN WHITENER

How to Make a Creamy Beauty Lotion for a Few Cents

The juice of two fresh lemons strained into a bottle containing three-quarters of a pint of water, add a quarter pint of the most remarkable lemon skin, beat until smooth, strain through a cloth, add a small jar of the ordinary cold cream.

Care should be taken to strain the lemon pulp gets in, then this lotion will keep fresh for months.

Every day rub this lotion over the bowels and stomach, and an occasional dose given to the well chilled lotion will be a great help if the trouble does come suddenly will help to remove the trouble.

Just try it! Get three ounces of cream, add a dash of cold water, two lemons from the grocer and make up a quarter pint of the sweetly fragrant lotion, then rub it daily into the face, neck, arms and hands.

An Open Verdict

No Proof That Police Fired Fatal Shot in Winnipeg

Winnipeg.—A coroner's inquest came to his death during a riot on Saturday, June 21, as the result of receiving a bullet wound through the heart, fired by some person unknown. It was the verdict of the coroner's jury after a full hearing. The coroner said that the evidence showed that a number of shots were fired by rioters and there was nothing to indicate that the shot which killed Sokolowski was fired by the police.

Germans Extend Franchise

Weimar.—The German national assembly has endorsed the new constitution and has endorsed the article qualifying any male citizen, native or foreign, to become a member of the Reichstag for a term of 35, for the office of president. The naturalization provision was included owing to the realignment of the German frontier depriving many former German subjects of their nationality. The constitution provides that the president shall be chosen by popular vote.

Anarchist Plot In Rome

Central Part of Ancient Capital Was

To Be Attacked By Bombs

Rome.—An anarchist plot to attack the central part of Rome by means of hand grenades and other explosive devices has been foiled by the arrival of sixteen of the conspirators four hours before the time fixed for carrying out their plan.

About the same time thirty anarchists tried to board the Italian mail train, four miles from Rome, and tried to force the garrison to join in an attack in the Rome market place. The soldiers fired on the anarchists and seized several of them. The city remains tranquil.

FARMERS!

Why Not Grow

A Sure Crop?

Wheat is Too Speculative In This Dry Belt Without Irrigation

Not very many dry farmers can boast of a good crop, or anything profitable this year and it is a relief to be able to point to even one farmer who has made good in such a season as this has proved to be.

There is one farmer who has a splendid crop, not of wheat but of winter rye, and that farmer is A. C. Weaver.

He had profited by the experience of farmers in other dry belts and instead of allowing his fallow to remain indefinitely expected to turn over 500 bushels of winter rye from 112 acres.

A. C. followed the efforts of farmers in N.W. Dakota to overcome the perpetuation hazard of wheat growing. In the dry belt, winter rye was developed as a winter rye culture had jumped from 300,000 bushels in 1916 to 2,200,000 bushels in 1919 in that state where climatic conditions are almost identical with our own decided to make the experiment himself and an average of over 30 bushels to the acre is the result.

It is interesting to note that the Hon. Duncan Marshall is now earnestly advocating the cultivation of winter rye as a sure crop in Alberta. He has shown that a number of farmers have already demonstrated the value of that advice.

The reason winter rye makes such an excellent crop in Alberta is that being sown by the middle of September it is sown while the soil is still warm in the fall, and the spring stimulus goes directly to the development of stock and head ripening early in the year if that avoids both drought and frost.

Even as a green feed crop winter rye is a sure winner and it makes a splendid hay crop. It is not a particularly good grass for hay only this year would make a most profitable crop for farmers.

There has been a keen demand for Weaver's rye for seed in the country and he has already sold 1000 bushels. He is selling it at \$1.75 per bushel at the market price of \$1.50 per bushel.

Orders for seed may be sent with J. W. Tegordom at the Bassano Hardware and Farmers who desire to take any for this year are advised to leave their orders at once.

If only more farmers had given up the all wheat idea and grown winter rye adapting crop to climate, there would have been a different record to hand down for 1919.

TOWN COUNCIL

At the Council Meeting held on Monday several matters of more than passing interest were discussed, most of them bearing in reference to the vast amount of work needed in the Town and the necessary funds with which to accomplish the same.

The Council are tacitly pledged to exercise the strictest economies and have faithfully worked to this end, but a succession of extraordinary expenditures have risen which have had the effect of making their work practically ineffective. The largest single item of expense was the extraordinary expenses was the wreck of the smoke stack at the Incinerator. To replace that stack the Council will apparently have to expend a very large sum, and there is no appropriation of funds to cover this item.

Likewise the condition of some of our streets call loudly for immediate repair, and the utmost which can be expected of the Council is a very temporary job.

Nevertheless the Council is doing its best to meet the needs of the moment and to do what it can for the community by accepting the conditions of affairs with as good grace as possible.

The Engineer was ordered to grade the street leading to the Post Office and to fix up that portion of second Avenue from the Union Bank to second street.

Further instructions of the Engineer that a second-hand Photo scraper be purchased for \$12.50 was adopted.

The Secretary was instructed to prepare a special levy for Municipal Hospital purposes in accordance with instructions from Edmonton.

The Council decided to have the well at the pumping station entirely capped and thoroughly cleaned out.

The Boy Scouts returned from their annual camp at Crowfoot on Friday. Their appearance advertised the fact that a very pleasant and profitable time had been spent. B. G. Cooper, the Scoutmaster is doing a work amongst his boys which is deserving of greater recognition.

Bassano Celebrates

program and the final event the Red Cross Race especially exciting. Veteran Ben Gray despite the handicap of an arm lost for the Empire made a great showing and almost arrived home first.

Much of the success of the sports was due to the excellent work put in by A. G. Bond who managed the particularly part of the program and to the valuable assistance given him by M. R. McIlroy, J. W. Tegordom, J. C. McElellan and O. Madill.

In the afternoon the Gleichen and Bassano teams contributed valuable aid towards the entertainment of the huge crowd, who were somewhat disappointed at the non-appearance of the Famous Bar Cats.

Then followed the Public Banquet to honor Veterans which was an immense success from every standpoint.

To Chairman McCaughey and his army of willing assistants every praise is due for the hours of work which they had spent in preparing the menu and the seating of the visiting block in a banquet hall of splendid dimensions. Considerably over 200 guests enjoyed the sumptuous dishes which were offered them and it is not beyond the mark to state that the Dinner Committee and their many assistants achieved a record success.

The Community Spirit was very much in evidence during the banquets, and in fact during the whole day, which added very considerably to the success of the proceedings.

During the banquet a short but exceptionally good program of music was rendered by Mrs. N. T. Davis, A. G. Bond and Charles Carnegy.

The torch-light procession bonfire and fireworks made a fitting finale to an historical day.

Practically every car in the town and district took part in the procession and lined up in a tremendous circle round the bonfire upon which, in his element at last, sat the Kaiser (in effigy) in his place of sun.

Nothing but praise is due the organizers and Committee who carried out the work for the entire program for which they were responsible, passed off without a hitch.

Major Bredin, Chairman of the whole and Secretary Chas. Carnegie were indefatigable in their efforts, and the success of the different committees' work is in itself an eloquent testimony to the work they accomplished.

The Committee were comprised of the following: Chairman, His Worship, Mayor H. O. Bredin; Sec.-Treas., Charles Carnegie; Sports Committee, A. G. Bond, Chairman; E. G. Allen, J. R. Liggett; Dinner Committee, E. H. McCaughey, Chairman; J. P. Mason, R. Smith; Bonfire, Torchlight and Decoration Committee, E. P. Currie, Chairman; A. McKeen, A. L. Seale.

A full list of prize winners will be published next week.

The Bassano War Veterans desire to express their appreciation of the hearty reception and entertainment provided for them by the people of Bassano at the Peace Day Celebration held Saturday and also for the hospitality extended to their comrades living out of town who were present at the Celebration.

Everybody Be There

At a meeting of the executive of Bow Valley Agricultural Society it was decided to cut out the Prize List at the pure-bred stock competitions in order to reduce the list to meet changed conditions.

The Committee also appointed R. P. Robinson, Chairman of the Sports, and other attractions and it was decided to hold a meeting on Saturday evening in Blair's Store to shape up a program worthy of the Fair.

Every person of either sex who is interested should make a point of being present at this meeting.

Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but EVERY YEAR.

Irrigation makes possible the successful raising of grain, the raising of cattle, which insure good returns in dairying and mixed farming.

Irrigation means intensive farming and close management, with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Valley Irrigation Block is no longer an experiment, the years it has been tried having absolutely demonstrated its success whenever intelligently applied.

This is the most liberal offer of irrigated farm land on record.

Peace Day In Canada

Concluding an address before the Canadian Club at Vancouver at a luncheon given in his honor, Lt.-Col. Purney, Dominion President of the Great War Veterans of Canada, said:

"Once we used to dream to fight for our country, men and women everywhere throughout the broad land should lend their assistance and give every encouragement to all movements designed to develop the right kind of a can-do spirit, to make every Canadian frictionless, to make new movements come—*in a word, to make one and all feel that they are members of the great Canadian family, and that, while they have rights, they have also responsibilities to discharge to their adopted country and fellow citizens.*"

Saturday, July 13, has been set aside by His Majesty's Government for the day of general peace rejoicing for the victorious peace which Mr. God has been vouchsafed to the Empire and its allies in the great war. Every Canadian who has been serving with the Great War Veterans or that day in their patriotic determination to make Canada the land of their dreams, and should consecrate the same to the task of unifying the world, we have a day to live and are prepared to live and strive for. We realize that it is no easy road we have to travel that will bring us to our goal. Through iron sacrifice of body, will and soul, we can reach it—*that is our one road.*

These noble and inspiring words are just what was to be expected from the leader of that brave and gallant body of men who fought for and saved Canada when everything that our people hold dear seemed to be in danger of being lost to us. Thousands of their comrades gave their lives for the great dream of a finer, better Canada in the future; other thousands will go through the same trials and hardships and all made sacrifices and suffered to a degree that no one except those who went through the awful inferno of the war could understand. These men are determined that their losses, sufferings and sacrifices shall not have been made in vain.

Canada's returned soldiers are the nation's greatest asset, and for many years to come their influence will be in the direction of maintaining in shaping national policy and establishing our national ideals. It is well that those ideals should be high and altogether worthy.

What of those other thousands of Canadians who did not experience the comradeship of the trenches, nor place their bodies in the path of a ruthless and arrogant foe? They, too, must be honored by the same standards of conduct that make Canada the land of their highest fond dreams—a land of hope and glow where all men are free and equal and where peace and prosperity reign.

How can Canada be elevated to such a position of strength and patriotic self-sacrifice of the Canadian people. Nature has endowed our Dominion with riches almost beyond the dreams of avarice, and the people in the world have been so richly blessed, and it only remains for the Canadian people to wisely administer and develop the wonderful resources nature has provided to make the Dominion a power in the nations.

To make our dreams come true must first be, of all, greater unity in thought and purpose among the people of Canada that has heretofore been lacking. There must be less of discord and religious bigotry. We must learn and appreciate the fact that all men are brothers, and that whatever may have been our antecedents, our native tongue or faith, here in Canada we are Canadians, subjects of the world, not an empire, joint heirs to one of nature's greatest storches of happiness and wealth.

There must be less of holding back at fellow citizens because by the accident of birth they first saw the light is some far-off portion of the world, or because that same accident they were brought up to worship in different forms. There must be less of suspicion and more of sympathy; less of antagonism and more of co-operation.

In the second place, there must be

determination and a united effort on the part of all to assure to the boys and girls of Canada—the hope of Canada—the best possible education regardless of their present condition and place in life. The governments of the world are striving to save the world, to save the standard of education, and are making special efforts in behalf of the children of our non-English speaking settlers. But while government can do much by law and administration, their efforts will be only partially successful unless there is hearty co-operation on the part of all the people.

It is the men and women everywhere throughout the broad land should lend their assistance and give every encouragement to all movements designed to develop the right kind of a can-do spirit, to make new movements come—in a word, to make one and all feel that they are members of the great Canadian family, and that, while they have rights, they have also responsibilities to discharge to their adopted country and fellow citizens.

Sulphur-Laden Bals in Yukon

A sulphur-laden shower of rain, a rare phenomenon, fell over Dawson City, Yukon, and vicinity a few days ago. A thirty-minute downpour left pools and sidewalks studded with a sulphur residue, which chemists declare is sulphur which they think was carried in the upper atmosphere currents from some distant volcanic eruption. A similar precipitation has been reported at Eagle, a hundred miles north of Dawson, and also in northern British Columbia.

WEAK MOTHERS REGAIN HEALTH

Through the New Blood Dr. Williams' Pink Pills Actually Make

No mother should allow nervous weakness to get the upper hand of her body or mind. Day after day spent in care and anxiety is enough to cause fretfulness and depression. But there are certain cures which know how to make never run down. A change of diet, better her blood system, and rest make important factors in getting the nerves a better tone. But there are other causes which should take a short treatment. Mrs. Harry P. Seider, Wilton, Ont., says: "Five years ago my twin sons were born. They were weak and very miserable, hardly fit to do anything. The doctor gave me medicine, but it did not help them. Then I tried another doctor, but with better results. One day I went to see another doctor, and he told me that the mother of the children had not done me any good. Dr. Williams' Pink Pills, and tell what I did to get them to go home. By the time these were given to me, I got the same boxes. But I did not need them all, as I was entirely cured, and now feel better in my body. Now when I go to bed at night I sleep well. I always recommend Dr. Williams' Pink Pills, and tell what I did to get them to go home. I shall continue to recommend them."

At the first sign that the blood is out of balance, Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and strength. Pink Pills through any medicine dealer, or by mail at 50 cents a box or six boxes by mail to Dr. Williams' Medicine Co., Brockville, Ont.

Irrigation in Alberta

Farmers Determined to Secure Irrigation Without Delay

Macleod, Alberta.—A project to secure irrigation for the district lying between the Waterton and Belly rivers with its southern extremity 12 miles due west of Cardston, has been completed. The project is to take the water from Belly river to the southwest tip of the Blood Reserve, and by carrying it north parts of four townships can be watered, some 30,000 acres in all, it is thought.

But there are other claims, and the water may be taken by others, so the farmers themselves will engage an engineer to make the necessary surveys.

Mr. Harry P. Seider, Wilton, Ont., says: "Five years ago my twin sons were born. They were weak and very miserable, hardly fit to do anything. The doctor gave me medicine, but it did not help them. Chief Cuddy, 49, will remain in command for eight years and his term will be a glorious one for the city.

Sawing Wood With One Arm

For some months now no dispatch on the life of the former German emperor at Amerongen, Holland, has omitted to say something about his favorite pastime of sawing wood with one arm.

The faithful correspondent who sends out these stories, or the royal secretary who gives them to him, evidently is not sufficiently familiar with manual labor to know that sawing wood is an occupation which requires the use of both arms.

The retired emperor, unfortunately, has but one. Is it mere vanity which directs that the world be offered this characteristically German, calligraphic, or is there a more far-reaching political design back of it?

The same old size and slippers can't copy the stage of life, but they fulfill a multitude of variety shows.

I fell from a building and received what the doctor called very bad injuries, but I could not walk on it for three weeks.

got MINARD'S LINIMENT, and in a few days I was again walking again.

I think it the best liniment now.

"Understand where you come from great game country?" said the lady on the committee to welcome the grizzly warriors of the western plains.

"Indeed, yes, ma'am," was the cowboy reply.

"What is the biggest game you have in Wyoming?"

"Poker, ma'am."

Patience is the right bower for success.
